Remember me

A background image of a blackboard filled with handwritten physics equations. The most prominent equation is $E=mc^2$ in the center. Other visible equations include $\frac{1}{P^2} \frac{P_0}{P}$, $\frac{P_0-P}{T_0}$, $\frac{1}{n} [0]_0^{2\pi}$, $\frac{1}{\sqrt{2\pi}} \frac{dx}{dn}$, $E = \frac{1}{2} \hbar \sqrt{k/m}$, $\beta = \frac{1}{\mu_0} (\vec{E} \times \vec{B})$, $E = \frac{\hbar^2 k^2}{2m}$, $\sqrt{\frac{3kT}{m_0}} = \sqrt{\frac{3kT N_A}{M_{im}}}$, $\sqrt{\frac{3R_m T}{M_p \cdot 10^{-3}}}$, and $\frac{1}{\sqrt{2\pi}} \frac{dx}{dn}$. There is also a drawing of a globe with lines connecting different points on its surface.
